

## CEGASA eBick ULTRA 175 INVERTERS COMPATIBILITY LIST

REV.	DATE	REASON / RESPONSIBLE
00	04/05/2021	I+D
01	09/02/2022	I+D

## 1 Introduction

### 1.1 Purpose

Cegasa batteries can be integrated with the most popular inverters, inverter/charges, charges and other power devices on the market using CANbus communication protocol.

The following document presents the list of the compatible inverters and charges with Cegasa battery models eBick ULTRA 175. Cegasa has developed and approved the communication with this inverter and charger models and therefore Cegasa certifies the compatibility in terms of warranty of the batteries.

Contact Cegasa if you want to integrate the batteries to an inverter or charger not listed in this document.

## 2 Inverter list

Manufacturer	Type	DC Voltage Range (Vdc)	Communication protocol
<b>Victron</b>	Multiplus	48	CANBus
	Quattro	48	CANBus
	Multigrid	48	CANBus
	EasySolar	48	CANBus
<b>SMA</b>	Sunny Island	48	CANBus
<b>STUDER</b>	Xtender	48	CANBus
	Compact	48	CANBus
	Next3	48	CANBus
<b>SOLIS</b>	Serie RHI	48	CANBus
	Serie EO1P	48	CANBus
	Serie EH1P	48	CANBus
	Serie RAI	48	CANBus
<b>GOODWE</b>	Serie EM	48	CANBus
	Serie SBP	48	CANBus
	Serie ES	48	CANBus
<b>INGETEA</b>	IS STORAGE 1PLAY	48	CANBus
